FQC 系列卡口式防水圆形连接器 FQC series bayonet waterproof circular connectors

FQC系列卡口式防水圆形连接器,是在FQ系列的基础上改进型产品,除外壳结构采用机加工外,其安装尺寸、接触件排列及数量完全等同与FQ型产品。 该连接器具有体积小、可靠性高、抗振动、防水性好等特点,插头与插座连接快速,使用方便、操作简单。广泛应用于各种电子、电气设备的电路连接。本产品技术要求和检测方法采用了GJB598A国家军用标准的有关规定。

FQC Series Bayonet Waterproof Circular Connectors are the connectors improved based on FQ series which are the same mounting dimension, contact arrangement & quantity and so on except machining shell. The connectors have the feathers such as small volume, high reliability, vibration resistance, waterproof, quick release, easy to use. They are widely used for connection of electronic and electrial equipments. The technical requirements and inspection are based on China Military Standard GJB598A.
